Objective

Hardworking entry-level computer engineer looking to secure a full-time position to utilize my knowledge and seek opportunities to learn and improve my skills.

Education

Missouri University of Science and Technology

May 2019

B.S. Computer Engineering

GPA: 3.2/4.0

Experience

MERCY – Field Service Technician

Oct 2019 – Present

- Communicated effectively and met with users on their requirements to be met
- Troubleshoot and resolved general software and hardware issues
- Configure and install computer hardware, software, and networking for users
- Managed ticket queues in ServiceNow and provide first line of support

Missouri S&T – Senior Capstone Design Project

Aug 2018 – May 2019

- Collaborated with team members to design an 8-bit computer course curriculum
- Researched and assembled parts and components to create an 8-bit computer
- Analyzed and documented necessary requirements for improvement

Courses

Computer Organization and Design

Embedded Processor Design

Data Structures

Computer Communication Networks

Basic PLCs

Microcontrollers & Embedded Systems

Skills and Languages

C/C++

Python

Cadence

Assembly Language

Microsoft Office

Modelsim

Altera Quartus II

MATLAB

KiCad
